CESI ÉCOLE D'INGÉNIEURS

CESI
ÉCOLE D'INGÉNIEURS

CESI Graduate School of Engineering is a 5-year School of Engineering that covers the whole national territory with 25 campuses and with a student-centered scheme in all fields of Engineering.

CESI Graduate School of Engineering also provides labelled Executive Post-Master degrees.

CESI Graduate School of Engineering provides each engineering student with the opportunity to build a tailor-made career path in which he or she is an actor. The Master Programs Industrial Engineering and Computer Engineering /IT are offered in French or English language.

◆ MAIN PROGRAMMES OF STUDY

CESI Graduate School of Engineering offers :

- a **2-year undergraduate programme** (Pre Eng Cycle) in all fundamentals linked to Engineering.
- a **Master's degree in Engineering** (3-year programme) with 4 specializations :
 - IT - Computer Engineering
 - Industrial Engineering
 - Civil Engineering and construction
 - Embedded systems
- **Executive Post Master's degrees** in : IT, Project management, Organization and industrial performance, Quality, safety, environment and CSR, Civil engineering; construction.
- a Summer School in Sustainability and Eco-construction

◆ RESEARCH

The objective of research at CESI is to produce knowledge and methods as innovative contributions to the scientific community ecosystem. It shares the results of its research with CESI's partner companies and contributes, in its fields, to handle the local, national or international technological challenges. CESI students have access to LINEACT's labs and publications in the framework of CESI pedagogy that includes "Training through research". Among Lineact's research topics count: "Learning and Innovation" and "Engineering and digital tools".

The two application filed "City of the Future" and "Industry of the Future" allow CESI's research lab to combine the business approaches with the implementation of LINEACT's projects around scientific themes. They respond to two major challenges of our time which are the energy and digital transitions of globalized societies. CESI's research lab welcomes international visiting scholars and international interns on a regular basis for internships, fellowships, research seminars and conferences.

◆ STRENGTHS

- **Our innovative curriculum** involves an active approach to learning that is project-based, linked to companies and research centered on each single student. We also provide close guidance to help students in clarifying and achieving their career objectives.
- **CESI is recognized by French and International academic accreditation boards** : our degrees are accredited by the CTI (Accreditation Board in Engineering) and certified EUR-ACE (European Quality Label). CESI is a full member of the Conférence des Grandes Ecoles (CGE), Conférence des Directeurs des Ecoles françaises d'Ingénieurs (CDEFI), n+i Network, Campus France Forum, CDIO™, Girls on the Move, AUF, signatory of the Erasmus+ charter, and FITEC projects among others.
- **International cooperation and student mobility** is a key dimension of the CESI's mission The school offers dual degree pathways, integrated curricula, professional trainings abroad, and technical assistance in the field of educative engineering and politics. All CESI students have to spend at least 1 international semester abroad. CESI also welcomes international degree-seeking and exchange students and is involved in many European projects.
- **Services for international students** : buddy programme, help to find an accommodation, guidance at each administrative step,

◆ LOCATION

The 25 campuses are located in Aix en Provence, Angoulême, Arras, Brest, Bordeaux, Caen, Dijon, Grenoble, La Rochelle, Le Mans, Lille, Lyon, Montpellier, Nancy, Nantes, Nice, Orléans, Paris, Pau, Reims, Rouen, Saint-Nazaire, Strasbourg, Toulouse.

IDENTITY FORM

- ◆ **Precise name of the institution**
CESI Ecole d'ingénieurs
- ◆ **Type of institution**
Private
- ◆ **City where the main campus is located**
Paris
- ◆ **Number of students**
8500
- ◆ **Percentage or number of international students**
10%
- ◆ **Type and level of qualifications awarded**
Master's degree in Engineering (French Diplôme d'Ingénieur), Executive Post Master degree, specific programmes, Summer Schools.
- ◆ **French language courses**
Yes - All international students can benefit from French As A Foreign Language (FLE) courses during their studies at CESI.
- ◆ **Programs for international students**
Yes - CESI Ecole d'Ingénieurs provides foundation years targeting international students, operated with labelled Language schools and «nplusi network» for some of them.
CESI also offers a French Engineering Pathway that allows international students to integrate a 1-year- Foundation Program before pursuing their studies with an Engineering Master program.
- ◆ **Programs in English**
Yes - CESI provides its Engineering degree programs Industrial Engineering and Information Technology - Computer Engineering in English and/or in French. CESI also offers a French Engineering Pathway, fully in English.
- ◆ **Registration fees/year (for information only)**
Undergraduate programme : 7500€/ year for non-EU students
Master's degree in engineering : 9500€/year for non-EU students
Executive Post Master degree® : 12000€
- ◆ **Foundation years** : according to the scheme
- ◆ **Postal address**
CESI Ecole d'Ingénieurs- Direction générale
1 avenue du Général de Gaulle
Tour HyFive - 6ème étage
92 800 Puteaux - France
